1. Introduction

1.1. This statement details our transactional based charges which are for activities that support the competitive supply market and will be billed by us on an individual basis for any service requested.

1.2. Transactional charges apply to the following activities:

- Energisation, de-energisation and re-energisation services;
- Disconnection of a site;
- Revenue protection services;
- Urgent metering services;
- Radio tele-switching services; and
- Accounting and Administration Services – and Other Services Ancillary to Use of System

2. Charges for Energisation, De-energisation and Re-energisation

2.1. The way in which some ancillary services are provided will depend upon site-specific requirements and/or instructions received.

Visit to Energise/Re-energise/De-energise Supply

2.2. Other than the first energisation of a new supply, a charge will be made for each visit to premises on request to energise/re-energise/de-energise a supply by insertion/removal of fuses where whole-current metering is fitted.

2.3. Charges for these services are shown in the tables below. This charge is applicable even when the visit to fulfil the request does not result in energisation/re-energisation/de-energisation.

2.4. Where the visit is to a larger business site or is otherwise exceptional, then individually assessed charges will be quoted. This will also be the case where the energisation/re-energisation/de-energisation is performed by means other than the insertion/withdrawal of fuses.

Charges to Energise, De-energise or Re-energise by insertion or withdrawal of fuses will be levied for:	
Visits to site during normal working hours:	£49.00 per visit.
Visits to site at any other time, including Bank Holidays:	£182.00 per visit

Other circumstances:	
A larger business site; and/or	All charges will be individually quoted
